

AMENDMENTS TO THE CLAIMS

1. (Currently Amended) A car headrest cover for protecting and beautifying a headrest and being covered on a headrest having a video device, ~~characterized in that~~ wherein said headrest cover ~~comprising~~ comprises an accommodating space disposed ~~on~~ in said headrest, a viewing window disposed on said headrest cover corresponding to the position of said video device installed on said headrest, and a protective unit disposed on said headrest cover corresponding to the position of said viewing window, the headrest cover and the protective unit being readily detachable from the headrest.

2. (Original) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein said protective unit has one end sewed and fixed to said headrest cover, and the other end has an adhesive surface for fixing by a fixing component disposed on said headrest cover and the internal surface of said protective unit.

3. (Original) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein said protective unit on its internal surface has an adhesive surface, and a fixing

component disposed on said headrest cover corresponding to both ends of said protective unit for their adhesion and positioning.

4. (Original) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein said fixing component and adhesive surface are adhesive tape for repeated adhesions.

5. (Currently Amended) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein said protective unit is a ~~stylish~~-doll.

6. (Currently Amended) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein said protective unit has a beautifying unit ~~at its~~ on an external surface thereof.

7. (Original) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein said beautifying unit is a doll of different styles.

8. (Original) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein said beautifying unit is sewed and fixed onto said protective unit.

9. (Currently Amended) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein said beautifying unit has at least one fixing ~~components disposed at a position~~ corresponding to component attachable to said protective unit for the adhesion and positioning of the beautifying unit on the protective unit.

10. (New) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein the headrest cover and protective unit match in color and materials to make it difficult to distinguish whether the car headrest cover has a video device.

11. (New) The car headrest cover for protecting and beautifying a headrest of claim 5, wherein the doll is readily detachable from the headrest cover.

12. (New) The car headrest cover for protecting and beautifying a headrest of claim 6, wherein the beautifying unit is readily detachable from the protective unit.

13. (New) The car headrest cover for protecting and beautifying a headrest of claim 1, wherein the protective unit is pivotally attached to the headrest cover and wherein attachment

means are provided for locking the protective unit in a closed position covering the viewing window.

14. (New) The car headrest cover for protecting and beautifying a headrest of claim 2, wherein the headrest cover and protective unit match in color and materials to make it difficult to distinguish whether the car headrest cover has a video device.
